

BETADINE® kids 1+

COLD DEFENSE nasal spray

Introduction

Common colds is more prevalent in infants and children. Young children are more vulnerable because their immune systems haven't matured and haven't developed resistance to most of the culprit viruses. The most common route of infection of colds is through the nose. Cold viruses entering the nose attach to the nasal lining where they multiply and spread. This then leads to the symptoms such as stuffy, runny nose, sore throat, coughing, fever, aches and pains and fatigue.

What is BETADINE® COLD DEFENSE Kids Nasal Spray?

BETADINE® COLD DEFENSE Kids Nasal Spray is an easy to use nasal spray, clinically proven to fight against cold viruses. If used at the first sign of cold, **BETADINE® COLD DEFENSE Kids Nasal Spray** shortens the duration of cold symptoms by 2 days. It also moistens the nasal lining to protect it from dryness and its unfavorable effects.

How Does BETADINE® COLD DEFENSE Kids Nasal Spray work?
BETADINE® COLD DEFENSE Kids Nasal Spray targets the area in the nasal cavity where cold viruses first take hold and multiply.

It forms a moisturising protective film on the nasal mucous membrane. This liquid layer serves as a physical barrier against external influences such as cold viruses, air pollution and low air humidity.

Its natural ingredient Carragelese® physically traps the viruses on the nasal lining, hinders their spread and multiplication, as well as helps your body to remove them naturally.

BETADINE® COLD DEFENSE Kids Nasal Spray is Preservative free and Sterile.

BETADINE® COLD DEFENSE Kids Nasal Spray is proven to eliminate 99% of cold causing viruses.

BETADINE® COLD DEFENSE Kids Nasal Spray is suitable for children above 1 year old. It is non-drowsy and non-addictive.

Direction for Use

2-3 sprays into each nostril 3 times a day. Treatment should begin as early as possible at the first sign of cold.

1. Remove the protection cap before use and pump a few times if necessary until spray is discharged.

BETADINE® COLD DEFENSE Kids Nasal Spray is now ready for use.

2. Lay your child down on his/her side or sit up with child's head tilted to one side. Gently insert the nozzle into the nostril. Spray two to three times into each nostril. Hold the bottle upright when spraying. Replace protective cap after use.

Special precautions for safe use

Do not use if allergic to any of the ingredients.

In case of adverse reactions, stop treatment and consult a doctor or pharmacist.

Keep out of reach of children.

To avoid contamination do not use this product for more than one person.

Avoid contact with eyes.

Do not refrigerate. Do not freeze. Store below 30°C.
